

6 Foot Blair

Hardware

Seat Frame

Ends

Seat/Back Support
brackets

PARTS LIST: (Quantity for one 6' bench)

QTY	ITEM
2	Ends
1	Seat Frame
1 bag	Hardware
1	Steel Pole

TOOLS NEEDED FOR INSTALLATION:

Socket Set with 9/17" Socket Wrench

INSTALLATION INSTRUCTIONS:

1. Check and verify for all parts and hardware.
2. Line up the ends and insure that the pre drilled holes line up with the Frames pre drilled holes.
3. Starting with one of the ends insert a bolt through the pre drilled hole into the frame. Continue this with the other pre drilled holes; insure that the bench is square before tightening.
4. Tighten all hardware and make sure bench is square.
5. The Pole will be placed on the underside of the bench between both ends. Insert the Pole into the pre drilled holes on each end and tighten as necessary.
